GRADUATING CLASS

OF THE

SCHOOL OF NURSING

OF THE

MEDICAL COLLEGE

OF

SOUTH CAROLINA

Foreword

In this annual we have tried to recapture for you, with words and pictures, the things which we have shared with you in our three years here.

Laughter and tears, work and play, friends and events. Yes, we have shared all these things together, and though we will not always be together, we hope that this book will help you relive these memories, and remember these three years which we have shared in our lives here, at the Medical College of South Carolina.

To Our Mothers and Fathers

We, the graduating class of 1956-57, take great pride in dedicating our annual to our mothers and fathers. We hope that this will show in some small way the love and appreciation we feel for you and for all that you have done for us. For without you, Mother and Daddy, we would never be here today, ready to step into the future for which you have helped us to prepare.

We will never be able to say "Thank you," for all the things you have done . . . for being our sounding board when we just wanted to blow off steam, for that word of encouragement when we felt like no one really cared, for getting us back on the right track when we were disgusted and felt that we were being mistreated, and for just being there with your love and faith to guide us. For all these things and for many more we say, "Thank you, Mother and Daddy, thank you from the bottom of our hearts."

RUTH CHAMBERLIN, R. N.
Dean, School of Nursing of the Medical College of South Carolina

Miss Chamberlin was graduated from the Mt. Sinai Hospital School of Nursing in New York City. She received her B. S. and M. A. degrees in Nursing Education and Administration from Teacher's College, Columbia University in New York City.

She has served as Night Supervisor at Mt. Sinai Hospital, Assistant Director of Nursing at Rochester General Hospital, and Educational Director and Director of Nursing at the Syracuse University School of Nursing. Miss Chamberlin is at present Dean of the School of Nursing of the Medical College of South Carolina. During W. W. II she had leave of absence when she held the rank of Major in the Army Nurse Corps as chief nurse of the Mt. Sinai Hospital Unit.

In organizational work Miss Chamberlin was first president of the S. C. State League for Nursing; is past president of the S. C. State Nurses' Association and is the nurse representative to the Executive Committee of the State Board of Health.

Dr. Lynch was born in Hamilton, Texas, on November 27, 1887. He was educated in public schools and received his M. D. degree in 1910 from the University of Texas. In 1910 and 1911 Dr. Lynch was a resident Pathologist at the Philadelphia General Hospital and in 1911-1913 he was instructor in Pathology at the University of Pennsylvania. During these years he was also assistant Pathologist at the Philadelphia General Hospital and University of Penn. Hospital. In 1913-21 he was a professor of Pathology at the Medical College of South Carolina and during this time he served in the United States Army as a Captain in the Medical Corps. In 1926 Dr. Lynch returned to the Medical College of South Carolina as a professor of Pathology. In 1935-43 he was vice-dean and in 1944 became dean. Dr. Lynch became president of the Medical College of South Carolina in 1949, in which capacity he serves at the present time.

SOPHIA LAWANDALES

The curriculum of a senior student is very fascinating. We are always raring to go. Our classes range from nine in the morning to seven at night, but by this time we have learned to sleep any time or any place, even if it is in a straight chair in class. We have most of our classes such as chemistry, anatomy, microbiology and Nursing Arts our first two years. Our last year we are faced with the grave problems of Professional Adjustments II.

Our services are usually narrowed down to Obstetrics, Isolation, and the Emergency Room. We have a lot of charge duty from which we gain a lot of experience.

A member of our class is the president of the student body, editor of the annual and I'd like to say that for the last three years a member of our class has been "Miss Roper."

Fortunately, even with all our work, classes, and school activities we can always find time for a game of tennis or a movie, even if it is early in the A. M., but "we loved every minute of it."

EDUCATION AND PROGRESS

"Education, if it is to stay alive, must have a frontier. It cannot stand still; it must go forward or regress. For it to go forward there must be those willing to venture ahead of general practice, exploring, and charting the course. * * * There needs to be constant challenge, bold thinking, critical study, pointed discussion, and trial in practice of new ideas."—Hollis L. Coswell, President, Teachers College, Columbia University.

The School of Nursing of the Medical College has one main frontier—to prepare nurses to care for the sick in an ever-changing medical world. Needs and demands for nurses many times exceed the supply, for nurses have proved themselves as trained to take orders, poised and skilled in emergency and sympathetic with those who have problems. A few years ago there were few industrial nurses, few nurses in doctors' offices and few military nurses. The big field was private duty where kindly bedside care could be afforded by the patient. The nurse always liked this field for she had time to know and care completely for her patient.

Demands for detailed records have taken the nurse away from the bedside, multitudes of diagnostic tests with clerical necessities have claimed hours formerly spent with the patient. Medical research has brought changes in procedures so rapidly that it is hard to keep students informed of the most recently acceptable methods. Right at this point the need for trained leadership becomes a nursing need and the School of Nursing is looking ahead to determining the best procedure to follow.

In reviewing the school history we take courage for changes and progress have been made. Roper Hospital Training School for Nurses was organized in 1883. In 1916, the Board of Commissioners of the Roper Hospital, feeling that the instruction of the nurses would be more adequately conducted if the Training School were incorporated with the Medical College, proposed to the Trustees of the College that such affiliation be effected. In 1919, the school became the School of Nursing of the Medical College of South Carolina. Roper Hospital grew to a four hundred fifty bed hospital and remained the area for clinical service and experience until September, 1955, when the Medical College opened its four hundred sixty-five bed hospital to referral patients for the purpose of teaching, service and research. Students now receive experience in both hospitals. The school has increased in the past ten years from an average of ninety-five students to an average of one hundred sixty.

The School of Nursing Building now under construction by the Medical College will open during the summer of 1956. The ground floor is especially constructed for the teaching of bedside nursing though the sciences will continue to be taught in the laboratories of the Medical College. The first floor will be largely a reception and recreational area for students. There is, however, a small reception area set apart for the use of the Alumnae Association. The second, third and fourth floors are student quarters. Each four students will have a suite consisting of two bedrooms with an adjoining bathroom. On each floor, a lounge room with a kitchenette and a launderette will permit recreation and care of personal laundry. The entire building is planned to be a home for student nurses where gracious living and character development will be encouraged during the three years of basic learning of nursing skills.

In looking to the future the school will be associated with the community through affiliation with Roper Hospital. Experience at the Medical College Hospital will bring wider fields for understanding of cases referred for study and treatment by the Medical College faculty. Demands for trained leaders in nursing have brought serious consideration of the strengthening of collegiate nursing in the State. To this end, the Medical College is ready to seek funds and to shoulder its responsibility as needs and demands become clear.

Ruth Chamberlin, Dean
School of Nursing

These Our Seniors - - - After Eleven??

SOLICITUDE

"One Friday on Calvary, as in a hospital ward
Three men lay dying—among them our Lord.
'Twas the worse case of neglect that was ever recorded;
These patients Whose pain Pilate had ordered.
On three hard beds in the shape of a cross
Without pillow or blanket, no nurse would endorse.
Now the One in the Center our attention should claim,
Jesus of Nazareth, the chart gave His Name,
A cardiac condition examiners' find—
Excessive love for the whole of mankind.
Now you who are nurses, just listen to this:
Unsterilized nails pierced His Feet and His Wrist,
And what about this for cruel medication?
Vinegar and gall was His Lips' 'leviation.
His back men wounded by blows and welts,
Yet no soothing ointment relieved the hurts,
No cold compress was applied to His Eyes,
The world's greatest lover just hangs there and dies.
Not a grain of morphine, not a tourniquet set,
As Mary's Son slowly bleeds to death.
The chart then concluded, as further we see,
'The sad Man from Nazareth died about three'.
His loved ones mournfully went their way—
His Mother, Magdalen, and John so they say.
Now don't blame the Jews for this frightful neglect,
Our sins did it all; our sins do it yet.
This treatment of Christ demands reparation,
It falls to you Nurses of this generation.
Whenever you see anyone in pain
Just make believe it is Calvary again,
And do for the patient what you wish they had done
For the Man in the center—The Innocent One.
It will thrill his Angels, it will please him, too;
Just keep at it girls, 'til life's work is through,
And when after death your soul mounts on High
God will 'cap' you again in His name in the sky,
And on Judgment Day when heaven you will win,
Because nursing your patient you really nursed HIM!"

We have now reached the second step on the ladder of our training. At the beginning of the second year we receive our first black band for our caps; with this comes added responsibility. Operating Room, Pediatrics, and Isolation are our main services, and we find ourselves working night duty for the first time. Three months of this year are spent at State Hospital on Psychiatric Affiliation.

Between our irregular working hours and classes we still find time for recreation. Some prefer tennis, while others work on the Social Committee to help plan informal dances. The newspaper offers another project for the Juniors.

Another year passes with new services, new classes, new supervisors and new students, but each new experience is looked forward to with pride and expectation as we begin to feel a real part of the world of nursing.

The freshman year is a very interesting year in our training career. It is nice to be "probies" no longer. At last we have the cap which we have strived long and hard for and which we wear with pride and dignity.

As we advance, we learn the limits of our abilites. During our freshman year we spend most of our time working on the Medical and Surgical wards. On the wards there is so much for us to learn and then we realize our nursing training has just begun. Each day we share our experiences with our classmates and oh, what experiences some of us have!

A great deal of our time is spent in classes. A few of our many classes are Nursing Arts II, Medicine, Surgery, and O.R. technique.

This year we enjoy to the fullest those extra privileges we receive. We become members of the student body and participate in all student activities. At this time we begin to realize that we have many responsibilities and standards to uphold at all times. The freshman year becomes a very memorable year of work and much, much fun.

ALMA MATER

Dear Alma Mater
This we pledge to thee,
Throughout our lives,
Our love and loyalty.
Please shed your light
With wisdom, truth, and will
So that our lives
May all thy aims fulfill.

Teach us the way for courage,
Strength in need,
Give us the faith to serve and to succeed
Our school we love,
Thy cause of health is right,
Our Alma Mater
Help us with thy might.

We praise thy name,
And pledge our loyalty.
We lift our song of triumph constantly.
May you be strong and grow for years to come.
Medical College
Sing we this our song.

We Nurses all,
Pay tribute to our state
South Carolina,
High thy standards rate,
We Nurses all,
Proclaim our love for thee,
Medical College
Daughters proud are we.
